

ClearWater Troughs

CONCRETE TROUGHS

Trusted by Champions

who we are

Built for farmers. Trusted by livestock.

From sheep and cattle to horses, poultry and pets—ClearWater's range of reinforced concrete troughs is crafted with one goal: to deliver clean, reliable, and low-maintenance watering solutions that stand the test of time.

Each of our concrete stock troughs is meticulously designed to ensure durability, ease of use, and superior water quality, making them the ideal choice for farms and feedlots across Eastern Australia.

Built for the Paddock, Backed by Professionals

From Manildra, NSW to properties across Australia, ClearWater Tanks is a name trusted in the yards, feedlots, and pastures of real working farms. Our products are designed with livestock health, ease of cleaning, and longevity at the forefront—and every unit is built by a team that understands agriculture firsthand.

We don't build products to compete with plastic—we build them to outlast it. Every trough we pour is made to stand up to the harshest paddocks, the heaviest cattle, and the test of time. We're not just selling concrete—we're backing Australian farmers with gear that won't let them down

our range

SHEEP & CATTLE

- Versatile 4ft, 8ft, and 16ft options
- Sheep & Cattle combo designs available
- King Cattle models for deeper, high-volume storage

FEEDLOTS

- Reinforced troughs with stabilising pads
- Easy-clean design reduces water loss
- Feed troughs now feature tapered sides to maximise consumption

HORSE, PET AND POULTRY

- Round horse troughs with safe access and generous depth
- Small troughs perfect for poultry pens, goats, dogs and yard animals

Cement Hob

Float Valve Chamber with 2" Inlet

Recessed Drain & Bung

Dished Floor

water troughs

Trough Features & Custom Options

Standard Features

- ✓ 40MPa reinforced concrete
- ✓ 2" inlet + concrete lid
- ✓ Enclosed float valve chamber
- ✓ Cement hob protection
- ✓ Recessed drain + 4" outlet

Optional Add-ons

- ☐ High or low-pressure float valves
- ☐ M&F ball valves or Max-Flo float systems
- ☐ Precast concrete trough pads
- ☐ Delivery & paddock drop-off (location-based)
- ☐ Fenceline rails for feed troughs

CLEARPAD | 3M PRECAST TROUGH PAD

- Reinforced concrete precast trough pad
- Supports troughs up to 8ft long or X2 for 16ft troughs
- Cast-in threaded inserts provide lifting point and bracket anchor X4
- Easy to install
- Prevents erosion
- Young stock to reach water easily
- Great for soft soil and high traffic areas

feed bunks

FEED BUNKS						
MODEL	TYPE	LENGTH MM	WIDTH MM	HEIGHT (BACK) MM	HEIGHT (FRONT) MM	WEIGHT KG
CLEARFLBS8	Sheep Feed	3000	490	500	340	750
CLEARFLBS8	Sheep Feed w/ Fenceline Rails	3000	490			
CLEARFLBC8	Cattle Feed	3000	800	700	500	1300

We've built every product with the mindset of a working farmer, not just a manufacturer. That's why ClearWater troughs are deeper, cooler, stronger—and why they outlast plastic, year after year.."
